- 13. The legal assistance, support and advocacy for the protection of the rights of contributors for membership in the DAYS sharing economy.

ABOUT DAYS project

DAYS is a platform to select the most promising cutting edge technologies in the field of longevity, biotech and 4P Medicine, and an expert panel to choose the companies to be funded by DAYS Exchange (www.days.exchange).

DAYS will create a parallel economy of longevity and P4 medicine services, gathering the responsive and responsible life science experts, insurance companies and clinics.

We believe that in addition to efforts to combat lethal diseases, it is necessary to study the deeper causes behind the rapid deterioration of health with age.

Longevity Impact Forum

The Longevity Impact Forum will be held in a new, blockchain format. It starts in Italy, and will travel across 4 countries in Europe, along with a cruise (<http://liforum.org>).

The forum will be held from December 14 to 22, 2018. It will be broadcasted online, so that DAYS contributors will be able to inform their opinion, in order later to vote for experts election in the Blockchain Scientific panel.

The goals of the Forum are:

1. Showcasing the cutting edge developments in the fields of anti-aging, longevity, biotech and P4 Medicine
2. The discussion of validation methodologies for cutting edge technologies in the fields of anti-aging, longevity, biotech and P4 medicine,
3. Creation of interdisciplinary teams to be given grants from the Longevity Impact Foundation
4. Preparation for the election of the DAYS Blockchain Scientific Panel, including 100 leading global experts in the field of life extension and P4 Medicine.

DAYS Blockchain Panel election following the Forum.

Following the Longevity Impact Forum, the DAYS Exchange contributors will elect the DAYS Scientific Blockchain Panel of 100 top experts, who will later propose companies for the DAYS funds to be invested in.

LIF system is similar to the system of the US presidential elections: a general ballot of DAYS contributors (all registered users of the www.days.exchange site) selects the best life sciences experts, in anti-aging and longevity-related fields. And this Scientific Blockchain Panel of selected experts votes for or against different technologies and companies to be funded.

Finally, the DAYS Investment Blockchain Panel that will consist of well-known economists and managers, approves their decision.

DAYS Investment Blockchain Panel members are:

- Ø **George Lakis - MP at Morphosis Group, TeleHealth GD, MIT Enterprise Forum**
- Ø **Philippe van Nedervele, Lifeboat Foundation and Foresight Institute leader**
- Ø **Ondrej Pilny - Co-Founder and CEO icoindex.com, former Strategist at Siemens**
- Ø **Edgar Kampers - founder Qoin, since 1998 designs, implements & supports Community & City Currencies**
- Ø **Mauro Andriotto - Independent Expert at European Commission**
- Ø **James Canton – Chairman Institute of Global Futures**
- Ø **Benjamin Kraus - United Nations Financial Technology Advisor**
- Ø **Alex Lightman – Winner of the first Economist magazine Award, "The innovation most likely to radically change the world over the next decade"**
- Ø **Kirill Zhukov - former Top Executive Royal Bank of Scotland,**
- Ø **Warren Whitlock - Ochen Co-founder, TV shows producer and bestselling author**

Longevity Impact Forum and DAYS Exchange Scientific Blockchain Panel statement

1. LIF goals

With the final purpose to facilitate the process and improve the efficacy of investments in longevity and to effectively use its outcomes for the DAYS contributors well-being, the LIF platform is created to propose and vote for:

- a) DAYS Scientific Blockchain Panel of the best international experts, in anti-aging and longevity-related fields.
- b) The ratings of the most promising longevity technologies and companies to be funded by DAYS Exchange.

The purpose of these DAYS initiatives is to ensure digital equality of access to verified health R&D information and novel products, in particular as regards data on anti-aging technologies effectiveness. In return, DAYS will receive and analyze big data from millions of potential patients and insurance clients.

2. Admission to the LIF platform

Admission of new LIF members

- a) Eligibility Membership of the LIF is open to a participant of the LIF long-list (Appendix 1) who, by applying for membership at email: info@liforum.org, has indicated his, her or its agreement to become a member and accepted the duty of members set out in the following clause (3). A member may be an individual, a corporate body, or an individual or corporate body representing an organisation which is not incorporated.

(b) Admission procedure. Admission procedure includes application to email stated in sub-clause (a), with his/her/its willingness to participate in the Longevity Impact Forum or to propose other LIF members.

3. Duty of LIF members

a) It is the duty of each member of the LIF to be an active voting member of the LIF, and to submit research papers (or to make peer reviews) for LIF.

b) Duties of the DAYS Scientific Blockchain Panel electors: to nominate companies for voting procedure and to participate in polls for at least 51% of the nominated companies.

4. Chairing of LIF

The First Chair of LIF will be nominated and elected by the DAYS Board of Directors and the Longevity Impact Forum's organizing committee. The person nominated as chair by the DAYS Board of Directors under present clause (Chairing of LIF), shall, if present at the LIF event and is willing to act, preside as chair of the meeting.

Chairman of LIF has the following powers:

a) Announces peer reviews for papers of the LIF speaker candidates and approves Longevity Impact Forum Speakers, qualified after consideration of their papers.

b) Announces polls at the DAYS Scientific Blockchain Panel elections.

c) Rewards the DAYS Scientific Blockchain Panel electors by DAYS tokens.

c) Announces polls for the LIF members to rate the most promising longevity technologies and companies to be later funded by DAYS.

d) Approves technologies and companies nominated by DAYS Scientific Blockchain Panel.

e) Approves the process of nominated companies to be considered by DAYS Investment Blockchain panel.

Elections of the next LIF Chairman will take place in December, 2019 (or earlier, if the first Chairman makes a statement of resignation), under the following procedure:

Members of the DAYS Board of Directors propose candidates for LIF Chairing, and then make an open ballot, where the candidate who has received most votes becomes the Chairman.

5. Longevity Impact Forum, voting

Any decision other than those pertaining to section 4 (Decisions that must be taken in a particular way) shall be taken by a simple majority of votes of the DAYS contributors.

The first Longevity Impact Forum will be held on a cruise ship cruising the Baltic Sea.

The Forum sessions will be held during the liner stops in 7 cities. The first setting plenary session will be held in St. Petersburg, on June 7, 2018.

The sections of the Forum will be drafted according to the preferential composition of the Forum participants from the country in which the liner stops are planned.

Online broadcasts for potential contributors of Days Exchange will be conducted during the entire time of the Forum.

Voting of delegates of the Forum, carried out in a transparent technology blockchain, will determine the short list of technologies and companies recommended for investment.

The final investment decision will be made by the blockchain panel, whose members' elections will be carried out by the contributors of the DAYS, during DAYS Token Generation Event (TGE).

6. Voting of the DAYS Scientific Blockchain Panel

DAYS Scientific Blockchain Panel's decisions

(1) General provisions

Except for those decisions that must be taken in a particular way as indicated in section 4, decisions of the members of the DAYS Scientific Blockchain Panel may be taken either by vote at a general meeting as provided in sub-clause (2) of this clause or by written resolution as provided in sub-clause (3) of this clause.

(2) Taking ordinary decisions by vote of DAYS Scientific Blockchain Panel's electors

Any decision of the members of the DAYS Scientific Blockchain Panel may be taken by means of a resolution at a general meeting. Such a resolution may be passed by a simple majority of votes cast at the meeting (including votes cast by email ballot, and blockchain votes).

(3) Taking ordinary decisions by written resolution without a general meeting on blockchain panel:

a resolution in writing agreed by a simple majority of all the members who would have been entitled to vote upon it had it been proposed at a general meeting shall be effective, provided that:

- (i) a copy of the proposed resolution has been sent via LIF blockchain system to all the members eligible to vote; and
- (ii) a simple majority of members has signified its agreement to the resolution in a document or documents which are received at the principal office within the period of 7 days

Call for collaboration

“We call upon scientists and organizers of transformation projects in medicine, to unite efforts in the healthcare transformation incentive system - DAYS.exchange. We have motivational tools for clinics, individual scientists and health projects. For example, we are developing a block of verification technology that will really prolong healthy life” - **Marin Livadaru, DAYS.exchange founder.**

“We believe that in addition to efforts to combat lethal diseases, it is necessary to study the deeper causes behind the rapid deterioration of health with age” – **Ion Vinaga, DAYS.exchange Chairman.**

The Healthcare Transformation Project, HIREP-ERIC, Hyperledger Health and multiple initiatives on P4 medicine are aimed to improve the current situation with healthcare. Precision medicine could let doctors prescribe treatments specifically tailored to individual patients based on their genetic information and other personalized factors. Looking at how many companies are interested in AI in healthcare, gives the impression that there is a brilliant future.

However, there is a lack of incentives to adopt these technologies in clinical practice. If we want to get impactful results in healthcare, we need to develop strategic partnerships. **Collaboration is a much higher level than competition**

WHO and other organizational collaborations

There is a strong need for leadership of global organizations to improve the overall effectiveness and integrity of healthcare transformation. The World Health Organization's and national healthcare systems' interests coincide with the DAYS globally coordinated actions.

An active and positive stakeholder relationship management with a focus on achieving the shared mission is a key strategic competence to reap benefits of the Longevity Impact Foundation engagement model.

The DAYS Exchange investment model directed by the Longevity Index will build a robust portfolio of digital partners to form business ecosystems. By defining the rules, establishing the governance and determining how to protect all the participants in the ecosystem, working collaboratively with regulators, success is eminent.
